

Readers explain inferences in writing

GRADES 3-12:

The collage features several educational cards and a diagram. At the top left, a large card reads "Readers make inferences & **explain** them in **writing**." To its right is a diagram of a head profile with two thought bubbles: "I'm thinking..." and "It reminds me of...". Below the head is a pink box labeled "Inference". To the right of the head are four green speech bubbles, each containing the word "detail". Below the main title card, there are three rows of cards. The first row has a pink letter "C" followed by the text "Repeat words from question..." and a pink box labeled "Inference". The second row has a green letter "E" followed by a green box labeled "The author states...". The third row has a yellow letter "R" followed by a yellow box labeled "The text also...". At the bottom, there is a yellow box labeled "These details prove..." and another yellow box labeled "because...".

Readers make inferences & **explain** them in **writing**.

I'm thinking...
