

# Readers explain inferences in writing

GRADES 3-12:

The collage features several educational cards and a diagram. At the top left, a large card reads "Readers make inferences & **explain** them in **writing**." To its right is a diagram of a head with two thought bubbles: "I'm thinking..." and "It reminds me of...". To the right of the head are four green speech bubbles, each containing the word "detail". Below the head is a pink box labeled "Inference". Below the main title card, there are three rows of cards. The first row has a pink "M" card, a card that says "Repeat words from question...", and a pink "Inference" card. The second row has a green "AA" card, a green box that says "The author states...", and a green box that says "The text also...". The third row has a yellow "M" card, a yellow box that says "These details prove...", and a yellow box that says "because...".

Readers make inferences & **explain** them in **writing**.

I'm thinking...  
It reminds me of...
