

Readers explain inferences in writing

GRADES 3-12:

Readers make inferences & **explain** them in **writing**.

The diagram shows a profile of a head with two yellow thought bubbles. The top bubble says "I'm thinking..." and the bottom bubble says "It reminds me of...". To the right of the head are four green speech bubbles, each containing the word "detail". Below the head is a pink rectangular box with the word "Inference" in white.
