

3-STEP PROCESS | Comparative Thinking

See
Differences

FIRST, look across the row to **see** all of the **differences**.

Add
Sameness

SECOND, look across the row for details to **fill in holes** and **add details** that are the **same** for both.

Infer
Similarities

THIRD, **look AT ONE DETAIL** for Item A. Infer how that one detail may be **similar** to Item B.

What aspects are LIKE Item A for this same detail?
