

# Explain the facets of a student's life.

Describe a typical American student's life. List the important points and then write a first draft.

classes →

\_\_\_\_\_

There are many classes and subjects a student has to take. Friends make going to school fun. Even though there is a lot of homework, it is not usually too hard. This leaves time for a social life. A student should work to get good grades. Participating in sports and clubs is also part of a student's life.
