

Describe a symptom of binge-watching.

WRITTEN RESPONSE: **BASIC FORMULA**

©SMEKENSEDUCATION

Inference

Another likely sign of binge watching is the decline in one's physical appearance.

Evidence

Source 3 depicts the viewer with messy hair, food on her face, and mascara streaks.

Evidence

Source 2 reveals more than messy hair but significant hair growth, too.

Conclusion

Binge watching often impacts the viewer's physical appearance and overall hygiene routine.
